C. J. Clanson, of Ohio, a landscape artist, who has been visiting his son, Dr. Clanson, has left for his home.

Life Is the Greatest Asset You Possess!

Ever think of that? Whether you are a business man or woman—doctor—lawyer—merchant or banker; life is the greatest asset you possess, and all your plans for the future depend on its continuance!

What specific value, then, have you placed on that life, and what particular provision have you made for the future—should your plans for living go wrong—as they may? No matter what you hope to do if you live—create an estate NOW—at a very nominal cost; then whatever you accumulate later will be that much to the good.

How? Let me explain. If you are now in good health, this company will issue a contract guaranteeing to pay your beneficiary either \$1,000 or \$100,000—\$100.00 a month for life or \$1,000. We have a definite plan to fit both your particular case and means—ninety million dollars in gilt-edged assets as proof of our ability to make good, with over SIX MILLION dollars invested in Texas securities. This is three times as much as any other life insurance company doing business in the state has invested here.

Don't be led astray by non-essentials! The two important things for you to consider are—safety and cost. All the official records prove that insurance in this company costs less to the policyholder than in ANY other. Make me prove it. Get both sides to the story before you decide. That's the sensible thing to do. Claims of superiority or equality should carry conviction only when backed by absolute proofs. Call—phone—or write.

The Union Central Life

Insurance Company of Cincinnati

J. J. Tyndall, District Mgr.

"Talk with Tyndall"

277 American Bank Bldg.

Phone 4570.

CORONA, N. M.
